

HARVARD COLLEGE CHINA FORUM

Founded in 1998, Harvard College China Forum is North America's leading and longest-running student-run conference on China. The forum aims to engage leaders in business, academia, politics, and more in constructive dialogue on issues, trends, and challenges affecting the U.S., China, and the world. More than 1200 delegates and 100 speakers attended the forum in 2018, making it the largest of its kind. We look forward to working with you for our 22nd conference, which will take place at Harvard University in April, 2019.
